PROFILE SUMMARY

Creative and detail-oriented aspiring UI/UX Designer with a strong foundation in user-centered design principles. Proficient in tools like Figma and Adobe XD. Completed several personal and academic projects focusing on wireframing, prototyping, and user research. Quick learner with a passion for creating clean and functional interfaces.

EDUCATION

MOHAMED SATHAK
ENGINEERING COLLEGE

2017 - 2021

- B.TECH
- GPA : 7.5

WORK EXPERIENCE

As a UI/UX Design Intern at Rendercity Technologies, I gained hands-on experience by contributing to real-time projects such as a Food Delivery Application and a Staff Augmentation Platform. I was involved in the complete design process — from user research, wireframing, and prototyping to creating high-fidelity UI designs using Figma. I collaborated closely with developers and product teams to deliver user-centered and responsive design solutions. Through this role, I developed strong skills in design thinking, usability, and creating seamless user experiences across web and mobile platforms.

RENDERCITY TECHNOLOGIES | [OCT, 2024] – [MAR, 2025]

Food Delivery App

Designed a user-centric interface for a food delivery platform

- Created responsive UI for web and mobile using Figma.
- Focused on restaurant listing, real-time tracking, and checkout flow.
- Collaborated with developers to ensure pixel-perfect UI delivery.

Staff Augmentation

Enterprise UI design for client onboarding and staff management

- Designed HR dashboards, staff profiles, and allocation workflows.
- Used role-based access and UI logic for streamlined operations.
- Maintained design consistency using tokens and clean layouts.

MediCare

Designed intuitive interfaces for doctor appointments and e-health services

- Simplified navigation for elderly users and followed accessibility standards.
- Built dashboards for patients and doctors with scheduling features.
- Integrated prescription upload, history tracking, and alerts.
